Independent Network - East Midlands

“It is not going to be business as usual in Europe after May 23rd “

All over the European Union there is the loud clear message and mood from all nations crying out for EU reform. In 46 years the traditional UK party Euro MPs you elected cannot show what they have done to change the EU Parliament and EU Commission ...how it works, how it governs, the wasteful spend and the gravy train. It is now vital to have Independent Network Euro MPs in place to fight for funding and resources for the East Midlands and to fight for reform of the EU..... for you, your communities, your jobs. Only the Independent Network are committed to fight for reform to ensure fairness and prosperity for all and not just the few.

There will be change Let us take part in it.
Independent Network.
