PRESS RELEASE

Small Business across the East Midlands

The Independent Network will fight to ensure that the EU Small Business Act, Horizon 2020 and the COSME programmes to increase the competitiveness of SMEs through innovation, research and better access to finance are not sabotaged by UK government meddling.

Gold plating...beefing up, adding onto, EU directives by the UK has cost jobs and stifled business opportunities and is all but forbidden by the EU.

“Na it’s the EU rules mate that’s yer problem.”

It doesn’t wash anymore!!

EU Directives to nurture business to ensure futureproofing, survival and success across UK, EU and global markets must be enforced at UK national level by the EU. **Independent Network will press for this to happen to ensure a level playing field for UK and EU businesses.**
